

Your New Friend is Special!

All surgery at Marcum Road Animal Hospital is performed to the highest standards of safety and sterile surgical technique. Your cat will be monitored under anesthesia and during recovery by skilled and experienced technical assistants under the supervision of the veterinarian. Female cats will require a return visit 10 days after surgery for removal of skin sutures.

Kitten Plans

Male cats with one or both testicles retained (not in scrotum) are additional. Deworming for tapeworms or coccidia is additional
